SOURCE + TYPED REQUEST

scenario + frozen expectations
reveal_hint(actor_id, fact_id)

EIGHT ONTOLOGY ROLES

World declares Actor / Fact / Quest
Knowledge links Actor to Fact
Policy constrains Action
Trace records checks and effects

RELATIONS / CONSTRAINTS

actor knows fact; fact disclosed
forbidden / minimum quest stage
knowledge or history ≠ permission

ACTUAL RECORDED CHECKS

policy / actor / knowledge
stage gate + state-effect rules
only emitted checks shown

DECISION

authorized fresh /
authorized redisplay / denied

CANONICAL STATE EFFECT

fresh: add fact + disclosed ID
tide_marks_hint only: relationship memory
redisplay / denial: no mutation
quest stage preserved

Roles: authored ontology map
7 Python checks | 6 Godot families | 7 DISC rules
Missing checks: unreported, not pass
Authored structure, not model state
